

Product Brief:

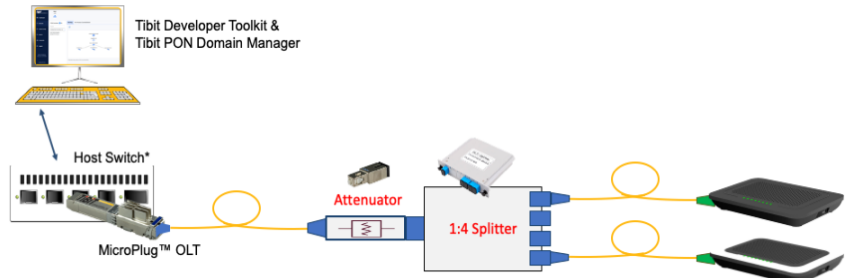

Tibit Quick Start Kit

XGS-PON Evaluation System

Overview:

The Tibit Quick Start Evaluation System provides a 10G XGS-PON solution to expedite developer and carrier evaluation of the Tibit MicroPlug™ OLT and 3rd party ONU interoperability. The kit is deployable using a wide range of commercially-available switches, and is complete with all hardware and management system components to begin development, evaluation, and even deployment of an interoperable 10G PON system.

Tibit MicroPlug OLT Start-Up Kit

Part Number: [TXT-KITOLT02-00](#)

2 x MicroPlug™ OLT

Software

- MicroPlug™ OLT Firmware
- Developer Toolkit SW
- Tibit Developer - Wireshark Plug-In

Documentation

- Install Guide [\[TN040\]](#)
- OLT Release Notes [\[TN002\]](#)
- Tibit API Release Notes [\[TN029\]](#)

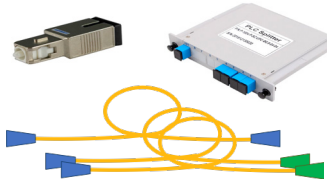

Tibit 3rd Party ONT Start-Up Kit

Part Number: [TXT-KITONU01-00](#)

2 x XGS-PON Bridge ONTs

ODN equipment: Optical splitter, Attenuator, and Optical cabling

Documentation

(Install Guide [\[TN040\]](#))

Tibit PON Domain Manager Start-Up Kit

Part Number: [TXT-DOMAIN01-00](#)

Software

- PON Domain Manager SW and POC/Field Trial License
- WebUI and Netconf Interface SW

Documentation

- PON Domain Manager User Guide [\[TN035\]](#)
- PON Controller User Guide [\[TN026\]](#)
